Rubric-Code Your Hero			
Criteria	**Possible Points**	**Student Evaluation**	**Teacher Evaluation**
Control- Structure-Does your code motion move sprite in a logical sequence? • Does Sprite move in correct direction? • Are multiple objects sequenced properly? • Are movements timed properly?	40		
Parallelism- events occurring simultaneously, either independently or interdependently.	20		
Sprite-Is Sprite appropriate for chosen hero? • Did you draw your own sprite? • Did you change the Sprite costume? • Does Sprite move in a logical sequence	20		
Debugging-Did you identify and fix errors in the program that is not functioning as expected?	20		
TOTAL	**100**		

Comments:
1. Control Structure—motion code errors, missing operations
2. Parallelism-events does not occur simultaneously
3. Debugging-errors in program that prevents it from functioning properly.
