Good job Lydia creating a neat and organized resume. Please see my comments and make corrections and then resubmit.

Great job Lydia making the corrections! You have a very well written "Summary" which highlights your skills and strengths. You also did a great job listing the dates of involvement for your school activities. I deducted a few points for the following: The "Heading" is missing City, State, and Zip. There's a lot of space in between the "Education" and "Skills" sections. Just click the green check button to resolve these areas. Overall, excellent job!
