Due Aug 17

SW exchange introductions (computer based classes will share via google classroom or emails that each student obtains from their neighbor), read them and share aloud when called about to introduce each other. Concepts of reading, listening and effective speaking will be applied.

SW discuss interpersonal skills that they already obtain and those in which they would like to achieve by the end of the semester. SW create challenging questions for each other in reference to what they wish to gain from the course. They will incorporate proposed methods and innovative procedures that they can apply as individuals and class for success in the class.

Directions:

1. In teams of 2 or 3 develops 5 challenging questions for your teammate. Ex: What do you aspire to be after high school?
2. After each team member develops a (5) challenging questions, they will ask the other team members the question and record the responses using a shared Google Doc.
3. Once each team member has answered the question, a conclusive paragraph should be written to introduce your teammate to class.
4. Submit assignment via google classroom.
